Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, and Billous Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of missmatic countries. No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with as-

surance, founded on proof, that no harm can arise from its use in any quantity. be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure" expels the miasmatic poison of FEVER AND AGUE from the system and prevents the develop ment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in bilious districts, where Fever and Ague prevails, everybody should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all-the poor as well ass the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain care of Intermittents is, that it contains no Quinine or mineral, consequently it produces no quinine or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease. Fever and Ague is not alone the consequence of the miasmatic poison. A great varity of disorders arise from its in
